Contents

Volume 80 (1991)

Foreword — Sexual development in plants: an open question of strategic importance
by I. Negrutiu and F. Sala (St. Genesius Rode, Belgium and Pavia, Italy) 1–6

CLONING STRATEGIES AS A FUNCTION OF SEXUAL MODE

Hermaphrodites

On flower design: a compilation
by I. Negrutiu, P. Installé and M. Jacobs (St. Genesius Rode and Gembloux, Belgium) 7–18

Mutants involved in floral and plant development in *Petunia*
by A.G.M. Gerats (Ghent, Belgium) 19–25

Insertional mutagenesis in *Arabidopsis thaliana*
by M. Van Lijsebettens, B. den Boer, J.-P. Hernalsteens, and M. Van Montagu (Ghent and St. Genesius-Rode, Belgium) 27–37

Monoecious plants

Sex determination in cucumber (*Cucumis sativus*) as a model system for molecular biology
by S. Malepszy and K. Niemirowicz-Szczytt (Warsaw, Poland) 39–47

Dioecious plants

Sex determination and reproductive organ differentiation in *Mercurialis*
by B. Durand and R. Durand (Orléans, France) 49–65

Sex determination and differentiation in *Asparagus officinalis* L.
by M. Bracale, E. Caporali, M.G. Galli, C. Longo, G. Marziani-Longo, G. Rossi, A. Spada, C. Soave, A. Falavigna, F. Raffaldi, E. Maestri, F.M. Restivo and F. Tassi (Milan and Parma, Italy) 67–77

Dosage sex-chromosome systems in plants
by J.S. Parker and M.S. Clark (London, U.K.) 79–92

Sex determination in the dioecious *Melandrium*. The X/Y chromosome system allows complementary cloning strategies
by D. Ye, M. Oliveira, J. Veuskens, Y. Wu, P. Installe, S. Hinnisdaels, A.T. Truong, S. Brown, A. Mouras and I. Negrutiu (St. Genesius Rode, Belgium, Lisbon, Portugal and Gif-sur-Yvette and Talance, France) 93–106

NUCLEO-CYTOPLASMIC AND CELLULAR INTERACTION CONTROLS ON SEXUAL REPRODUCTION

Male sterility and restored fertility in annual mercuries, relations with sex differentiation
by B. Durand and R. Durand (Orléans, France) 107–118

Mitochondrial involvement in petal and stamen development studied by sexual and somatic hybridization of *Nicotiana* species
by H.T. Bonnett, W. Kofer, G. Håkansson and K. Glimelius (Eugene, OR and Uppsala, Sweden) 119–130

Effects of Ri TL-DNA from *Agrobacterium rhizogenes* and the inhibitors of polyamine synthesis on growth, floral development, sexual organogenesis and polyamine metabolism in tobacco
by J. Martin-Tanguy, D. Tepfer and D. Burtin (Dijon and Versailles, France) 131–144

Changes in flowering and the accumulation of polyamines and hydroxycinnamic acid-polyamine conjugates in tobacco plants transformed by the *rolA* locus from the Ri TL-DNA of *Agrobacterium rhizogenes*
by Li-Yan Sun, M.-O. Monneuse, J. Martin-Tanguy and D. Tepfer (Versailles, Paris and Dijon, France) 145–156

Interactions of *Microbotryum violaceum* (*Ustilago violacea*) with its host plant *Silene alba*
by M. Ruddat, J. Kokontis, L. Birch, E.D. Garber, K-S. Chiang, J. Campanella and H. Dai (Chicago, IL, Taiwan, Republic of China and Cleveland, OH) 157–165

REPRODUCTION BIOLOGY: A STRATEGIC MATTER OF GENETIC ENGINEERING

The molecular biology of anther differentiation
by R. Scott, R. Hodge, W. Paul and J. Draper (Leicester, U.K.) 167–191

Expression of SLG self-incompatibility genes in the anthers of *Brassica oleracea:* new members in the SLG gene family
by P. Heizmann, A. Friry, C.-M. Guilluy and C. Dumas (Villeurbanne, France) 193–199

SEX DETERMINATION AND DIFFERENTIATION IN BIOLOGICAL SYSTEMS OTHER THAN PLANTS

Sex determination and differentiation in organisms other than higher plants
by A.T. Truong, M. Heinderyckx, P. Installé and I. Negrutiu (St. Genesius Rode, Belgium) 201–211
